EXECUTIVE SUMMARY

Dynamic professional with a solid background in graphic design and IT, skilled at making logos and adverts for businesses. Looking to use my creative design and programming skills in a web development career. Proven track record of successfully managing websites for businesses and non-profit organisations. Presently broadening knowledge via an online course on data analytics in order to provide a comprehensive method of problem-solving. I am Eager to contribute to creative projects in a fast-paced workplace that encourages innovation and lifelong learning. The objective is to effectively contribute to the changing tech and design world by integrating IT and design abilities in a fluid manner.
